

STEPHEN BRUNS - AIA, ALA, LEED AP

BRUNS ARCHITECTURE

Stephen is the founder and principal of Bruns Architecture. With a passion for crafting meaningful and cohesively detailed structures and spaces, he has guided the innovative practice since its inception. Stephen participates in every project in the studio - his intensive design process seeks to distill the essence of each project and cultivate it into a thoughtful and lasting architecture. Before starting the firm in 2008, Stephen practiced with large and small scale firms in Chicago and Milwaukee and influenced projects throughout the United States, France, and China.

Stephen's design leadership and experience continue to be recognized both locally and nationally. His work has received numerous awards including AIA Wisconsin Honor Awards and ALA Design Awards. Stephen was also the recipient of the Richard M. Raemer Memorial Award and the LaSalle Partners Fellowship in Architecture.
